140W (14") 180W (20")

Upright Type ∇ 95-1653
800(D)x640(W)x1780(H)mm/m
AC100V 115V-230V 50/60Hz
180W (20")

HOW TO PLAY

- By manipulating a battleship and with a fire beam gun, destroy the corps of raiders flying from distant outer space. (A maximum of 3 shots can be fired in a row)
- Each corps of raiders has its own characteristic assaulting method.
- Even when the concentrated attack of one corps has been evaded, the next corps will soon approach. Quickly recognize the characteristics of the enemy's movements to make an effective counterattack.
- When a corps of raiders is going to be wiped out, a mother ship will appear to reinforce the corps. Before being reinforced, be sure to shoot down the mother ship. (When the mother ship has been destroyed, additional raiders will not appear at the same spot)
- The more the screens are cleared, the stronger the attack of the raiders, and the more powerful will the corps be.
- Scoring 10,000 points, 50,000 points and 90,000 points awards a battleship.

SCORE

Mother ship • 500 pts

Meteor • 200 pts

Command raider • 200 pts

Fuse star • 200 pts

Attack raider • 50 pts

Pineapple U.F.O. • 200 pts
